## PROFILE

Full-Stack Developer with approximately 2 years of experience building and developing web applications using Laravel and React.js, including an HRIS used by approximately 100 employees and an e-commerce platform with affiliate marketing features. Experienced in RESTful API development, database query optimization (MySQL and PostgreSQL), and customization of Odoo ERP modules using Python. Proficient in developing new features, troubleshooting bugs, and improving application performance in production environments.

## EXPERIENCE

### FULLSTACK DEVELOPER

PT Amanah Karya Indonesia – Project Based Sep 2025 – Present

- Developed features and modules for an HRIS application using Laravel and React.js, serving approximately 100 employees, including payroll, user device management, and audit logging.
- Customized Odoo ERP modules using Python to support repair services, sales, and financial reporting based on client business requirements.
- Optimized application performance by improving database queries, implementing indexing, and reducing code duplication.
- Fixed bugs and enhanced user interfaces based on user requirements and feedback.

### FULLSTACK DEVELOPER

PT Amanah Karya Indonesia – Internship Aug 2024 – Mar 2025

- Developed RESTful APIs to support mobile applications for an e-commerce platform.
- Developed affiliate marketing, QR code, and data import/export features for the Berbagilink platform.
- Developed announcement and notification features, fixed bugs, and improved the user interface and data filtering processes in SIHRIS.

### CO MENTOR WEB DEVELOPER

PT Mitra Talenta Grup – Part Time May 2024 – Jun 2024

- Mentored web development students through case study guidance and question-and-answer sessions.
- Evaluated student performance based on daily and weekly activity reports.

## PROJECT

**SIHRIS (Human Resource Information System) | sihris.id**
**Tech Stack:** React JS, Laravel, Tailwind CSS, Shadcn UI, MySQL

- Developed the Payroll Component Assignment module to assign, manage, and validate payroll components for each employee.
- Developed User Device Management features with user and device activity logging to support audit requirements.
- Optimized the performance of the Time Off and Overtime modules by improving database queries, implementing indexing, and reducing code duplication.
- Developed announcement and notification features and fixed bugs in the attendance, work shift, password management, and employee data modules.
- Enhanced the UI of the approval list page, schedule settings, Employee List Dashboard Card, and notification page size settings.

**MFLASH ERP**
**Tech Stack:** Odoo, Python, PostgreSQL, Docker.

- Developed a technician override request feature with Admin authorization and technician filtering based on Active Shift status.
- Added a Sales PIC field to the Repair Order module and implemented automatic Sales PIC assignment based on sales type.
- Enhanced the Consolidated Balance Sheet and Profit & Loss reports by improving Excel export structures and introducing more flexible report parameters.

- Developed data import and export features across 16 modules in the Odoo ERP system, covering master data management, accounting, products, employees, and business configurations to improve data management efficiency and consistency.

**Berbagilink | berbagi.link**
**Tech Stack:** React JS, Laravel, Tailwind CSS, MySQL
- Developed RESTful APIs to support mobile applications.
- Designed a link-based affiliate feature and a unique QR code system for each store.
- Implemented data import and export features for store data management.

## EDUCATION

**SEKOLAH TINGGI TEKNOLOGI TERPADU NURUL FIKRI**
S1 Bachelor's Degree in Informatics Engineering (Software Engineering Concentration) Sep 2021 – Sep 2025
IPK : 3.91/4.00

**SMK HARAPAN BANGSA**
Computer and Network Engineering Jul 2017 – Jun 2020

## CERTIFICATION

**JUNIOR WEB DEVELOPER**
Badan Nasional Sertifikasi Profesi (BNSP) - No. 62019 2513 4 0001961 2025 Jan 2025
competencies in user interface implementation, structured programming, coding according to best practices, and the use of existing libraries and components.

**CLOUD & WEB INSTAN**
NF Computer Jan 2023
Training in web server deployment and management on AWS, as well as WordPress website development and optimization.

## SKILL

- **Backend:** PHP, Laravel, Python (Odoo), Node.js (Express), Golang, REST API, Codeigniter.
- **Frontend:** JavaScript, React JS, Tailwind CSS, Bootstrap, HTML, CSS.
- **Database:** MySQL, PostgreSQL
- **Tools:** Git, Docker, Figma, Trello, Click Up, Postman, Github, Gitlab
- **Soft Skills:** Dapat Bekerja Secara Tim dan Mandiri, Komunikasi Efektif, serta Manajemen Waktu yang Baik.
